

New Application Requirement for the 2023 Cycle

Morehouse School of Medicine seeks broadly qualified medical students who exhibit capacity for improvement, ethical responsibility to self and others, resilience and adaptability among other pre-professional competencies and are “primarily caring” with a passion for service to underserved communities wherever they exist.

To further enhance our holistic review process during the 2023 application cycle and to ensure we recruit applicants who embody our core values of knowledge, wisdom, excellence, service, innovation, and integrity, we are recommending applicants complete the Association of American Medical Colleges Professional Readiness Exam (AAMC PREview™), to assess the pre-professional competencies that our admissions committee believes are essential for success at our medical school.

The AAMC PREview exam is an opportunity for applicants to showcase personal and professional characteristics—beyond classroom learning—that will make them a great fit for Morehouse School of Medicine. We will consider scores as one part of our admissions process to better understand and evaluate the whole applicant.

The AAMC PREview exam will be available June – September 2022.

For the 2023 application cycle, the AAMC PREview exam will be administered online using remote proctoring. There will be a \$100 fee for examinees to take the AAMC PREview exam and release their AAMC PREview scores to all schools they apply to. Students who qualify for the Fee Assistance Program will receive a full fee waiver (no cost). Free preparation materials, including a full-length practice exam, are available through the AAMC.

We encourage you to review all our [application requirements](#).

Information about the AAMC PREview exam, including preparation materials, test registration, requests for accommodations, and important dates and deadlines is available here: <http://www.aamc.org/PREview>.
