

iOS Enrollment

Before enrolling, please ensure that your device has a strong wireless signal. Lack of a strong signal could prevent the device from enrolling properly.

To Enroll your device:

 From your mobile device, click on the link provided to you via email or in a browser go to <u>http://m.dm/msmmobile</u>

You will be taken to the Mobile Device Management enrollment site.

Click Continue.

- 2. Enter your MSM username and password.
 - Click **Continue**.

3. You must agree to the end user license agreement for your device to be enrolled. Read the agreement and if you agree, check the box and press **Continue**.

4. Click **Continue to** begin the process of enrolling your device.

5. As the installation process continues, you will be prompted to install the MaaS360 Profile.

Click Install to continue.

6. After a few moments, you will see a message indicating that MaaS360 will manage your device and some of the capabilities of this service.

To continue, press Install.

MOBILE DEVICE	MANAGEMENT			
Installing this profile will allow the administrator at "https:// services.m3.maas360.com/ios-mdm/ customer/30018454/device/ AppIF17L78SEF8H2/platform/3/ios- mdm.htm" to remotely manage your iPhone.				
The administrator may collect personal data, add/remove accounts and restrictions, list, install, and manage apps, and remotely erase data on your iPhone.				

7. A remote management message will prompt you asking if you trust the source of the profile being installed.

Click Trust.

Click **Done**.

8. To proceed with the installation of the MaaS360 app, click **Install.**

 When the app and profile have been successfully installed, you will receive a massage indicating that the device is now enrolled.

10. To configure your email, open the MaaS360 app and select **Email**.

If you wish to export your MSM contacts to your device's contact folder, select the slider.

Click Configure.
