JOIN AN ONLINE SEMINAR ON TRANSFORMATIVE LEADERSHIP IN INTEGRATED CARE PRACTICE

COURSE OVERVIEW

The *Transformative Leadership in Integrated Care Practice Curriculum* was developed under the leadership of Martha Okafor, PhD, MPA

through a partnership between the Satcher Health Leadership Institute (SHLI), the Georgia Department of Behavioral Health and

Developmental Disabilities (DBHDD) and Kaiser Permanente. The goal of this curriculum is to facilitate practice change to improve

the integration of behavioral health and primary care. Inspired by the Cherokee Health Systems integration model, SHLI set out to

develop a curriculum to equip leaders and health care professionals with the tools needed to transform their practices.

Over the past three and a half years, SHLI has collaborated with 10 integrated care demonstration sites to develop this curriculum.

The lessons learned informed the content and design of the curriculum's 3 modules:

- I. **Transformative Leadership**
- II. **Essentials for Practice Change and Improvement**
- III. **Essentials for Sustaining Integrated Behavioral Health**

The curriculum has been designed to serve multiple functions:

- Education
- Onboarding
- Preparation for practice change
- Integrated team building

SEMINAR OBJECTIVES

The purpose of this seminar is to:

- 1. Engage participants who have expressed interest in the integrated care curriculum**
- 2. Orient and demonstrate interactive sections by reviewing components of the curriculum**
- 3. Engage interested individuals in future planned revisions and retooling efforts**

Dr. Glenda Wrenn is the Director of Behavioral Health at the Satcher Health Leadership Institute and an Assistant Professor in the Department of Psychiatry and Behavioral Sciences. She most recently served as the Associate Residency Training Director in the Department of Psychiatry. Dr. Wrenn is committed to fostering resilient outcomes among disadvantaged populations using policy-relevant research approaches. She is active in mentoring students and residents, and committed to building collaborations across systems of care, disciplines, and professions to solve complex mental health challenges.

After joining Morehouse School of Medicine in 2011, Dr. Wrenn served as Associate Project Director of the Integrated Behavioral Health Initiative at SHLI and provided clinical leadership to integrated demonstration sites. She worked with the Grady Health system to improve the quality of psychiatric care through development of integrated services in the Emergency Department and Primary care clinics and served in several administrative leadership roles including Curriculum Developer for the Women's Center of Excellence for Specialty Care Education at the Atlanta VA.

HOST

**Glenda Wrenn,
MD, MSHP**
