

MOREHOUSE
SCHOOL OF MEDICINE

Department of Surgery

The Physiology of Vascular Hyper-permeability

Ed W. Childs, M.D., FACS

Chairman of Surgery
Morehouse School of Medicine

By the end of the lecture, the participants should be able to:

1. Describe the role of vascular permeability following hemorrhagic shock
2. Define the mechanism of vascular permeability following injury
3. Discuss novel therapeutic strategies to attenuate vascular permeability

WEDNESDAY, January 14, 2015

8:00AM – 9:00AM

Trauma Auditorium, Ground Floor, RM GD017
80 Jesse Hill Jr. Dr. SW, Atlanta, Georgia 30303

Morehouse School of Medicine is accredited by the Accreditation Council for Continuing Medical Education to sponsor continuing medical education for physicians.

The Morehouse School of Medicine designates this live activity for a maximum of 1.0 hours in AMA PRA Category 1 credit(s)™. Physicians should only claim credit commensurate with the extent of their participation in the activity.

Morehouse School of Medicine (MSM) requires instructors, planners, managers and other individuals who are in a position to control the content of this activity to disclose any real or apparent conflict of interest they may have as related to the content of this activity. All identified conflicts of interest are thoroughly vetted by MSM for fair balance, scientific objectivity of studies mentioned in the materials or used as the basis for content, and appropriateness of patient care recommendations.
