

2016-2017 Grand Rounds Series
Presented by

Department of Surgery

Jonathan Rupp, PhD

Co-Director, Injury Prevention Research Center
Associate Professor & Associate Director of Innovation and Discovery,
Department of Emergency Medicine,
Emory University School of Medicine,
Atlanta, GA

**The Evolution of Injury Prevention in Motor Vehicle Crashes:
“Advancements in Vehicle Technology and Crash Safety”**

WEDNESDAY, July 12, 2017

8:00AM – 9:00AM

Marcus Trauma Auditorium, Ground Floor, RM GD017

Learning Objectives

At the end of this presentation participants will be able to:

- 1) Review basic concepts in how vehicles and restraint systems function to protect occupants from injury.
- 2) Describe the types and frequencies of serious injuries to different body regions in motor vehicle crashes.
- 3) Explain how changes in population characteristics, including obesity and aging affect injury in crashes.
- 4) Discuss how new vehicle technologies, including automated vehicles are expected to affect crash and crash injury risk and injury patterns.
