

Automated External Defibrillators (AED) Training Notice

Training dates are March 30 and 31, 2016 from 9 am – 12 pm

This training has been developed by our Clinical Affairs and Human Resource departments, in conjunction with Heart Life Rescue to offer specific training on Automated External Defibrillators recently installed on the MSM campus. During the 3 hour session, you will be able to:

1. Discuss the benefits of having an AED on site
2. Learn when to activate the AED during an emergency response
3. Practice utilizing hands-on experience to become proficient in utilizing an AED
4. Learn how to check the AED monthly to ensure functionality

AEDs have been installed in the following locations on main campus. Each department unit will need to designate at least **two** people to attend the AED training. Other locations will be announced in the near future.

- National Center for Primary Care (Bldg. A)
- Hugh Gloster Building (Bldg. B)
- Medical Education Building (Bldg. C)
- Research Wing (Bldg. D)
- Multidisciplinary Research Center (Bldg. F)
