David B. Hoyt, MD, FACS
Executive Director, American College of Surgeons

OBJECTIVES:

After completing this activity participants should be better able to:

- 1. Review the history and origin of saline-based fluids for the treatment of shock.
2. Describe the changes in the trend of transfusion practiced today.
3. Discuss the rationale for 1:1:1 resuscitation.
4. Compare and contrast recent trials of hypertonic saline (HTS) vs lactated Ringer's (LR) solution.

12:00 PM Lunch

ACCREDITATION:

Morehouse School of Medicine is accredited by the Accreditation Council for Continuing Medical Education to sponsor continuing medical education for physicians.

CREDITS:

The Morehouse School of Medicine designates this educational activity for maximum of 1 hour AMA PRA Category 1 credit(s)™. Physicians should only claim credit commensurate with the extent of their participation in the activity.

DISCLOSURE STATEMENT:

Morehouse School of Medicine (MSM) requires instructors, planners, managers and other individual who are in a position to control the content of this activity to disclose any real or apparent conflict of interest they may have as related to the content of this activity. All identified conflicts of interest are thoroughly vetted by MSM for fair balance, scientific objectivity of studies mentioned in the material or used as the basis for content, and appropriateness of patient care recommendations.
