**Karen Minyard, Ph.D.** is the director of the Georgia Health Policy Center (GHPC) at Georgia State University and a Professor in the Dept. of Public Management and Policy. Dr. Minyard connects the research, policy, and programmatic work of the center across issue areas including population health, health philanthropy, public and private health coverage, and the uninsured.

Dr. Minyard has extensive experience with both the design of program reforms and external evaluation of the Georgia Medicaid program. Her research interests include financing and evaluation of health-related social policy programs; strategic alignment of public and private health policy through collective impact; the role of local health initiatives in access and health improvement; the role of targeted technical assistance in improving the efficiency, sustainability, and programmatic effectiveness of nonprofit health collaboratives; and health and health care financing.

Dr. Minyard is currently co-principal investigator and spearheads evaluation efforts for the GHPC's national coordinating center, Bridging for Health: Improving Community Health Through Innovations in Financing, sponsored by the Robert Wood Johnson Foundation
