

MSM Receives Two APyeS! Cluster Partner of the Year Awards from Atlanta Public Schools

For the second year in a row, Morehouse School of Medicine (MSM) was named Partner of the Year for the Booker T. Washington High School cluster by Atlanta Public Schools. The APyeS! award was given to MSM for [its work with the Tuskegee Airmen Global Academy](#). MSM also received a second Partner of the Year award along with its colleagues at Grady Health Systems for their work with the New Schools at Carver cluster through the [Reach One Each One](#) Youth Mentoring and Medical Exposure Program.

Criteria for these prestigious community-based awards include the program being sustainable and meaningful to students and staff at the school, meeting the needs of the school, and being implemented without expectation of something in return from APS or the individual school.

Recipients of the Partner of the Year Award for each of the nine school-based clusters will then be finalists for the school-based Partner of the Year Award for the entire APS system. [MSM won that award for the 2016-17 year](#). The winner of that award will be named at an awards ceremony on Wednesday, October 25.
