

2015-2016 Grand Rounds Series

Presented by

The Department of Obstetrics & Gynecology

Sasha Davidson, MD, FACOG

Maternal Fetal Medicine Fellow

Department of Obstetrics & Gynecology & Women's Health

Albert Einstein College of Medicine

Montefiore Medical Center

Bronx, New York

Topic:

“Fetal Fibronectin: A Review and Update on its Clinical Use in Obstetric Practice”

Tuesday, October 13, 2015

Time: 12:00 Noon

Grady Memorial Hospital, 4L Classroom

Learning Objectives

At the end of this presentation participants will be able to:

- 1)Identify the biochemical principles of fetal fibronectin (FFN) and review the basis for its use in obstetrics.*
- 2)Recognize the impact of preterm birth and discuss the role of FFN in predicting preterm birth.*
- 3)Cite landmark studies involving FFN and the impact on clinical practice.*
- 4)Discuss updates in the advancement and clinical use of FFN in predicting preterm labor.*
- 5)Discuss unanswered questions and possible areas of future research investigation.*
