

# GROW CELLS

Summer Cancer  
Research  
Opportunity for  
Rising 10th, 11th  
& 12th Grade  
High School  
Students

The GROW CELLS (Granting Research Opportunities in Wellness by Creating Exciting Learning Laboratories in Science) program is led by the Cancer Health Equity Institute at Morehouse School of Medicine. It enhances the opportunity for local high school students to participate in science education and to encourage them to pursue cancer research.
